DESIGNER MICHELE LISCO

Arredare significa creare la scenografia principale della propria storia: una storia di cui il gusto personale è il protagonista assoluto. La sua espressione si fa ogni giorno più complessa, sempre meno confinabile in categorie di genere e ambienti predefiniti. BARREL è la risposta a questo nuovo trend, grazie alla capacità di trasformare la propria destinazione d'uso per reinventare l'ambiente in una prospettiva polifunzionale: lavabo, camino o qualunque fantasiosa interpretazione si voglia attribuire al prodotto.

Furnishing a space means creating the perfect backdrop for your life's story: a narration in which your personal taste takes centre stage. As time passes, it becomes ever more complex to express it eloquently, ever more difficult to make it fit a genre or predefined style. BARREL is the answer. It can be whatever you want it to be, reinventing itself to fulfil a variety of functions: basin, fire, or for whatever intended use you want to make of it.

FIRE POWER

TAILORING

Le straordinarie caratteristiche di termoresistenza della ceramica consentono l'interpretazione di originali e inaspettate performance. Nato come lavabo, BARREL ha fin da subito rivendicato una sua autonomia: la sua versatilità, infatti, lo rende perfetto anche per un allestimento insolito come un camino e sa garantire un'ottima prestazione con elementi opposti come acqua o fuoco. Il trasformismo di BARREL è estensibile anche all'estetica, grazie alle possibilità di personalizzazione che consentono di stampare immagini a scelta.

The extraordinary heat-resistance of the ceramic means it can take to the stage in original and unexpected performances. Originally launched as a basin, BARREL immediately reclaimed its independence of use - its versatility makes it perfect as a quirky fireplace and it will perform to perfection with elements at opposite ends of the spectrum: fire and water. The transformative capacity of BARREL can be extended to include personalizations and the engraving of custom images.
